SUMMARY

Backend-focused developer with 1.5+ years of hands-on experience in **Java Spring Boot** and **PHP Laravel**, building REST APIs, database-driven applications, authentication systems, and full-stack solutions. Experienced with Spring Data JPA, Hibernate, Laravel MVC, MySQL, MongoDB, and third-party API integrations. Strong problem-solving background with 1000+ problems solved and maximum Codeforces rating of 1683. Seeking a Backend Developer Internship.

EXPERIENCE

Project-Based Backend Developer — **Remote**
Java Spring Boot & PHP Laravel Developer (Under Senior Trainer) — *2023 – Present*

- **Spring Boot:** Developed REST APIs using Spring MVC, Spring Data JPA, Hibernate, MySQL, and MongoDB. Implemented JWT authentication, role-based access control, validation, and Controller–Service–Repository architecture.
- **Laravel / PHP:** Built dynamic web applications and e-commerce features using Laravel MVC, Eloquent ORM, and MySQL. Integrated payment gateways and third-party APIs.
- Worked on practical client-oriented development tasks under a senior web development trainer, focusing on maintainable code and feature delivery.

ecomFixR — **Mirpur, Dhaka**
Intern Shopify Developer — *July 2026 – September 20, 2026*

- Customized Shopify storefronts using Liquid, HTML, CSS, and JavaScript; integrated third-party apps and optimized page performance, achieving a reported 20% faster load time.

PROJECTS

Hotel Management System | Spring Boot — GitHub | Live
Java • Spring Boot • Spring MVC • Spring Data JPA • Hibernate • MySQL • Bootstrap

- Developed a hotel reservation platform with room availability, booking management, customer records, payment processing, and invoice generation.
- Built an admin dashboard for managing reservations and monitoring hotel operations. Designed REST APIs and a normalized MySQL database using Controller–Service–Repository architecture.

EnglishMaster | AI-Powered IELTS Preparation Platform — GitHub
Java • Spring Boot • REST API • Gemini API • HTML • CSS • JavaScript

- Built an IELTS preparation platform covering Reading, Writing, Speaking, and Listening, with a Spring Boot backend and JavaScript frontend.
- Integrated Gemini API to evaluate written and spoken responses, provide AI feedback, and generate weekly/monthly learning progress reports.

KormoShathi | HR Management System — GitHub | Live
PHP 8.2 • MySQL • Bootstrap 5 • JavaScript • Groq API • Brevo • Cloudinary • Docker

- Developed a core PHP HR platform with employee profiles, attendance, payroll, downloadable PDF payslips, leave management, performance reviews, notice board, and digital employee ID cards.
- Implemented AI recruitment using smalot/pdfparser and Groq API (Llama 3.3 70B) to extract, screen, and score resumes. Integrated Brevo for interview invitations and Cloudinary for employee photo storage.

CareerVerse | AI Career Development Platform — GitHub | Live
React • Tailwind CSS • Firebase • FastAPI • Python • Gemini AI

- Created an AI career platform featuring study planning, Codeforces synchronization, coding progress tracking, and a GitHub-style contribution heatmap.
- Integrated Gemini AI for career guidance, quiz generation, automatic evaluation, and voice-based viva practice. Added Firebase data management and Google Calendar scheduling with notifications.

CineGhor | Movie Ticket Booking Application — GitHub | Demo
Flutter • Dart • Firebase • bKash Test API

- Developed a cross-platform movie booking app with Firebase Authentication, Cloud Firestore, dynamic seat selection, booking management, and bKash Test API payment integration.

SKILLS

Backend: Java Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs, PHP Laravel, Eloquent ORM
Languages: Java, PHP, C++, C, JavaScript, Python, SQL
Databases: MySQL, MongoDB, Firebase, PostgreSQL (Basic)
Frontend: HTML, CSS, JavaScript, React, Tailwind CSS, Bootstrap, Flutter
Tools & DevOps: Git, GitHub, Maven, Postman, IntelliJ IDEA, VS Code, Linux, Docker (Basic)

API Integrations: Gemini API, Groq API, bKash API, Firebase Auth, Cloud Firestore

ACHIEVEMENTS

- ICPC Asia Dhaka Regional 2025 and Preliminary 2023; BIUPC 2024; BUET Robotics Carnival 2025.
- Solved 1000+ problems; Maximum Codeforces Rating: **1683**; LeetCode Rating: 1400+.

CODING PROFILES

Codeforces • LeetCode • VJudge • CodeChef • CSES • AtCoder

ACTIVITIES & CERTIFICATIONS

Contests: 4 onsite, 150+ online. **Participation:** Engineering Summit 2023.

Certifications: CPS Academy (Data Structures, Algorithms, Graph Theory); Web Design (HTML, CSS, JavaScript, PHP, MySQL) — Joshore IT 2021.

EDUCATION

B.Sc. in Computer Science and Engineering **2023 – Present (4th Year)**

Bangladesh University of Business and Technology (BUBT) *Mirpur-2, Dhaka*

Relevant Coursework: Data Structures, Algorithms, DBMS, Web Technologies, OOP, OS, Computer Networks.
